

# Shantilal Shah Engineering College, Bhavnagar

## Brief report on Finishing School Program: 2018-2019

Shantilal Shah Engineering College, Bhavnagar organized finishing school program for four batches of final and pre-final year students. KCG empanelled trainers Ms. Supreeti Negi, Ms. Ankita Dave, Mr. Shorab Negi, Dr. Elizabeth Christian, Dr. Chhaya Parekh, Ms. Janma Vasavada and Ms. Pooja Raval trained these batches comprising of 148 students from Civil, Production, Mechanical and IC Engineering at separate venues. Formal Inauguration sessions were organized before both the phases of the training in presence of Principal. The trainers conducted training sessions by initial ice-breaking through providing stage to students by making everyone introduce themselves, and by motivational videos and other management games. Grooming for professional etiquette and dressing was another interesting session which saw active participation from students. The highlight of this successful first phase of the program was the overwhelming participation of the students in resume building, group discussion and public speaking. The students found themselves intrigued to methods that provided them opportunities to explore the state-of-art and fine-tune their skills into a professional way that ultimately would make them more employable. Students have given very encouraging feedbacks to this novel initiative of the Government of Gujarat and KCG. Students were oriented by the expert trainers before the training sessions were planned to encourage students to take this program.
