

## Progress Report of RUSA Component-12 Course

### Jetking Certified Technical Associate (JCTA)

#### At Shantilal Shah Engineering College, Bhavnagar

The Shantilal Shah Engineering college has signed the MOU with Jetking Infotrain Ltd to run the Jetking Certified Technical Associate “JCTA” course of 318 hours under the RUSA Component-12 (Vocationalization of Higher Education) on 02/01/2019. The course is mostly focusing on H/W and N/W skills required by the industry nowadays. Total 63 students 22 of Information Technology and 41 of EC Engineering have enrolled under this course.

The students have gone through both theory session and practical sessions too. At the end of the practical the students are also given some hands on training i.e. students perform the practicals by their own. So that they became more comfortable with the concepts and improved their skills to fulfill the industry needs in both H/W and N/W.

The student training was also based on ICT technology. The trainer showed the videos on different H/W and N/W related technologies along with the theory sessions too. In the video they involved some animation based explanation so that students were more comfortable with the understanding of the concepts.

The laboratory is equipped with high configuration computers in the institute to run this course. Students were more comfortable with the resources and the infrastructure.

Presentation by the student.

Students are performing the practicals by their own. The hands on practicals by the students.
