## **Report on One Day Workshop on Coding HTML and CSS**

**Date:** 7 February 2026

**Organized by:** Coding Club under Techno Club, IT Department

**Venue:** IT Department Laboratory-101, Shantilal Shah Engineering College, Bhavnagar

---

### **1. Introduction**

The Coding Club under the Techno Club of the Information Technology Department at Shantilal Shah Engineering College, Bhavnagar organized a **one-day workshop on "Coding HTML and CSS"** on **7th February 2026**. The objective of the workshop was to provide students with fundamental knowledge of web development and to enhance their practical coding skills in HTML and CSS.

In today's digital era, web development skills are highly essential for students pursuing careers in Information Technology and Computer Science. This workshop was designed to introduce students to the basic building blocks of web pages and to help them understand how websites are structured and styled using HTML and CSS.

The event witnessed enthusiastic participation from students of the IT Department. A total of **45 students** actively participated in the workshop and benefited from the hands-on learning experience.

### **2. Objectives of the Workshop**

The primary objectives of organizing this workshop were:

- To introduce students to the fundamentals of **HTML (HyperText Markup Language)**.
- To help students understand the concept of **CSS (Cascading Style Sheets)** for designing web pages.
- To provide hands-on experience in building basic web pages.
- To encourage students to explore the field of **front-end web development**.
- To enhance students' logical thinking and coding skills.

### **3. Workshop Content and Activities**

The workshop started with a brief introduction to web development and its importance in modern technology. The session covered the basic structure of HTML documents, commonly used HTML tags, and the role of CSS in styling web pages.

The key topics covered during the workshop included:

- Introduction to Web Development
- Basic Structure of an HTML Document
- HTML Elements and Tags
- Creating Headings, Paragraphs, Lists, and Links
- Inserting Images and Tables in HTML
- Introduction to CSS
- Types of CSS (Inline, Internal, External)
- Styling Text, Colors, Backgrounds, and Layouts
- Creating a Simple Web Page using HTML and CSS

The technical sessions of the workshop were delivered by the **student speakers**:

- **Anil Chauhan (4th Semester)**
- **Sumra Tabbarej (4th Semester)**

Both speakers explained the concepts in a simple and practical manner and guided the participants during the hands-on coding session.

During the practical session, participants were guided to create their own simple web pages using HTML and apply different styles using CSS. The hands-on activities helped students understand how web pages are structured and how visual design can be implemented using CSS.

Students actively participated in the coding exercises and clarified their doubts during the session. The workshop was interactive and encouraged students to experiment with different design elements.

---

## 4. Participation

The workshop received a very positive response from students. More than **40 participants** from the Information Technology Department attended the workshop.

Students showed great enthusiasm in learning the basics of web development. The hands-on practice sessions enabled them to apply the concepts learned during the workshop.

Participants appreciated the practical approach of the workshop which helped them gain confidence in coding.

---

## 5. Coordination and Organization

The workshop was successfully organized by the **Coding Club under the Techno Club** of the IT Department.

The event was coordinated under the guidance of the **Faculty Coordinator**:

**Prof. N. B. Nayak**

The smooth execution of the workshop was made possible through the efforts of the **Student Coordinators**, who actively assisted in organizing and managing the event.

**Student Coordinators:**

- Anil Chauhan
- Borad Priya
- Ravi Kasodariya
- Tirth Makwana
- Sumra Tabbarej
- Digvijay

Their support in managing registrations, guiding participants, and assisting during the hands-on sessions contributed significantly to the success of the workshop.

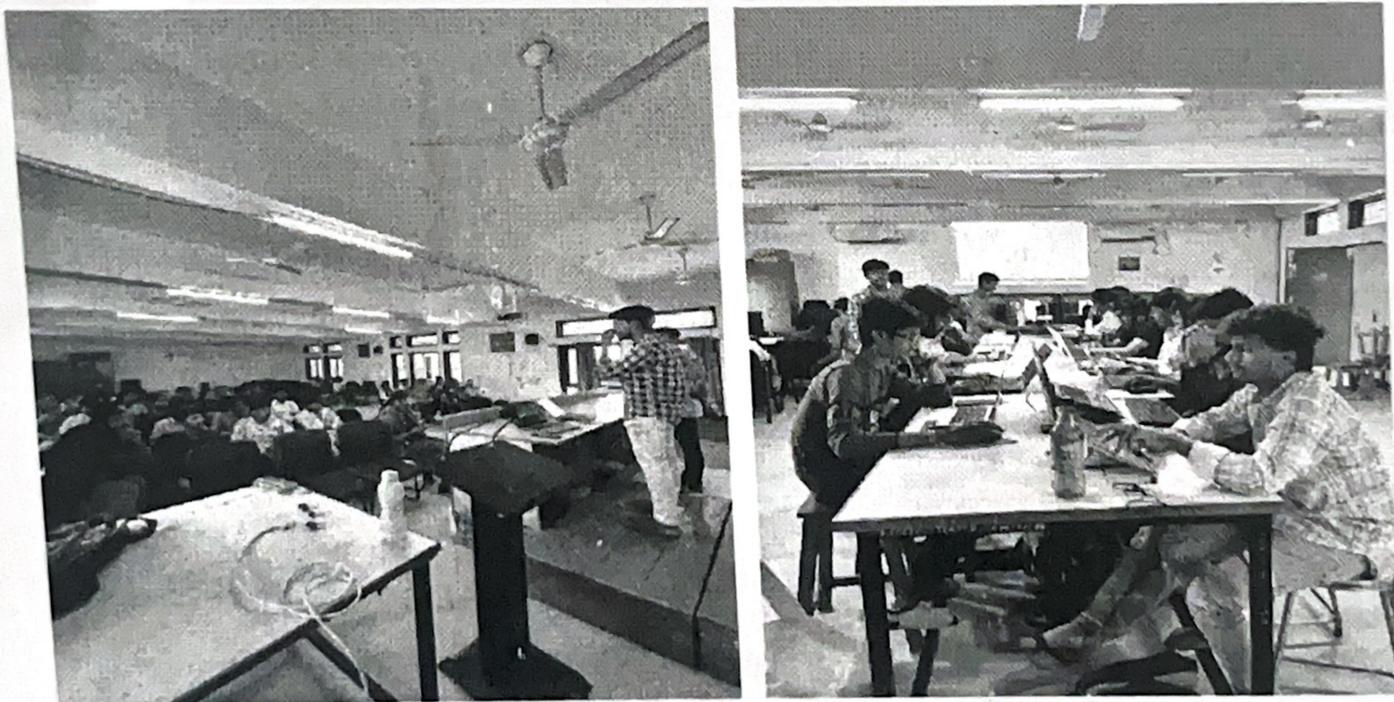

## 6. Learning Outcomes

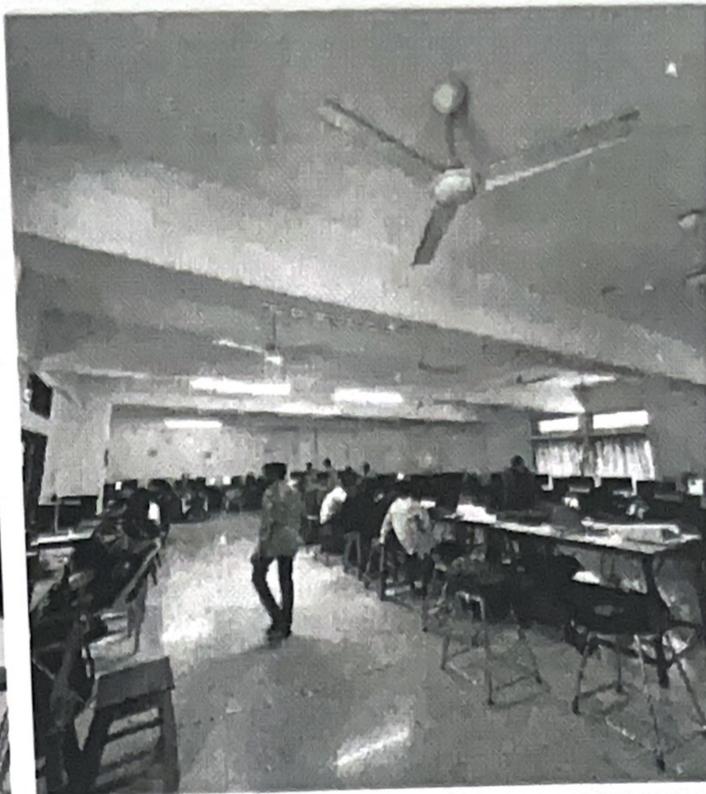

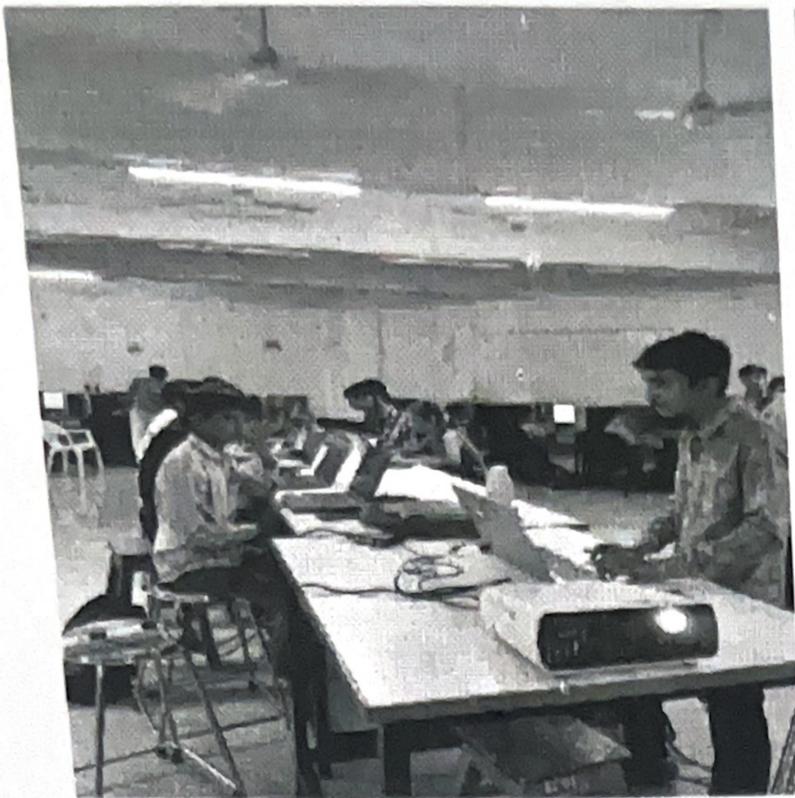

By the end of the workshop, students were able to:

- Understand the basic structure of an HTML web page.
- Use common HTML tags for creating content.
- Apply CSS for styling web elements.
- Develop a simple static web page.
- Gain confidence in basic web development concepts.

The workshop served as a stepping stone for students who wish to explore advanced topics in web development such as JavaScript, responsive design, and full-stack development.

## 7. Photograph Section

## 8. Conclusion

The **One Day Workshop on Coding HTML and CSS** was successfully conducted and achieved its intended objectives. The workshop provided students with valuable exposure to the fundamentals of web development and encouraged them to explore coding beyond the classroom curriculum.

The enthusiastic participation of students and the dedicated efforts of the organizers made the event a great success. Such workshops play a crucial role in enhancing practical skills and preparing students for future technological challenges.

The IT Department looks forward to organizing more such technical workshops to promote innovation, creativity, and technical learning among students.
