## **Event Description**

The "Resume Build-Up and Mock Interview" event is an exciting initiative organized by our techno club aimed at enhancing the resume-building skills and interview preparedness of 6th-semester IT students. This event is strategically designed to equip students with the necessary tools and confidence to navigate the competitive job market successfully.

During the event, students will have the opportunity to engage in hands-on activities and workshops focused on crafting effective resumes tailored to the IT industry. Expert mentors and seasoned professionals was provided valuable insights, tips, and personalized feedback to help students create compelling resumes that showcase their skills, experiences, and achievements effectively.

Moreover, the event will feature mock interview sessions where students will have the chance to experience real-life interview scenarios in a supportive and constructive environment. This simulated interview experience will help students overcome nervousness, build confidence, and refine their interview techniques. Feedback from experienced interviewers will offer valuable guidance on areas for improvement, ensuring that students are well-prepared to ace their future interviews.

Through this event, we aim to empower IT students to present themselves confidently and professionally In the job market, bridging the gap between academia and industry expectations. By honing their resume-building skills and interview prowess, we strive to instill a sense of readiness and assurance among students as they embark on their career journeys.
