NOTICE

B.E. SEMESTER 7TH

At present “ **Earthquake Engineering**” has been offered to all students of semester VII as an elective subject. However, few students have asked for change. They are hereby informed to select another subject “**Infrastructure Engineering**”

From the available two subject for all the students.

Failing this option, they will have to select one elective out of all four elective subjects available in GTU syllabus.

1. Earthquake Engineering (2170612)
2. Transportation Engineering (2170613)
3. Infrastructure Engineering and Management (2170612)
4. Application of Geo-Informatics in Civil Engineering (2170606)

The allotment will be done on the basis of merit of student and choice given by students themselves. To complete this process all students, have to report physically at the institute by tomorrow.

HOD,

Civil Engineering Department
