

# SHANTILAL SHAH ENGINEERING COLLEGE BHAVNAGAR

## Principal's Message *International Women's Day 2023*

Today, March 8th is being observed around the globe as International Women's Day to celebrate the achievements of women as well as to draw attention to the inequalities that still hold them back. International Women's Day 2023 is being observed with the theme "Embrace Equity". The theme seeks to start a conversation about just ensuring equal opportunities is not enough? What's important is equity.

"People start from different places, so true inclusion and belonging require equitable action," the women's day campaign said.

Explaining the difference between equality and equity, the campaign said "Equality means each individual or group of people is given the same resources or opportunities. Equity recognizes that each person has different circumstances, and allocates the exact resources and opportunities needed to reach an equal outcome."

On this occasion we must remember the legacy of our country to recognize, respect and value of the women power praised by our ancient wisdom. The incredible contributions of women of our country in all walks of life are tremendous source of inspiration for all of us. We honour the achievements of women who have significantly contributed in their fields, fought for gender equality, and paved the way for future generations.

We are responsible for creating a workplace where everyone can thrive and succeed, regardless of gender. We must continue to promote diversity, equity and provide opportunities to women to advance and excel in their careers. We may expand our perspectives and practices to truly innovate the way we can provide opportunities to women to perform and achieve the goals.

I am sure; we all agree that the women in our organization are integral part of our team and an equal contributor to our success. The hard work they put in, the dedication in their work and initiative they take are inspiration for all. We are and will remain committed to support in their growth and development.

On this day we stand with all the women, at work, at home and in the society, to work together towards a more equitable and just world.

Happy International Women's Day!

Dr.M.G.Bhatt
