Industrial Visit @ Harsha Engineers, Ahmedabad

Training & Placement Cell of Shantilal Shah Engineering College organized an Industrial Visit at Harsha Engineers, Changodar, Ahmedabad on 6th July, 2017.

52 students of final year- Production and Mechanical Engineering have been benefited by this visit. The students were imparted practical knowledge by the experts of Harsha Engineers in the fields of

- Organizational Structure and Operations
- Bearing-case Manufacturing
- Application of TPM and 5S for Manufacturing Excellence
- Critical Equipments and Handling
- Importance of Ethical Values for Industries

The students have felt value addition to their knowledge and learnt the lessons of importance of core human values.

We are very much thankful to the Harsha Engineers for providing an excellent learning environment and for all facilities.

We are also grateful to our Principal- Dr. M. G. Bhatt for granting permission to arrange the visit and support our initiative.

The cell is presenting thanks to the Head of the Production and Mechanical Engineering Departments- Dr. A. V. Gohil for motivating students and for providing through-out co-operation that had successfully completed the event.

The enthusiasm, discipline and punctuality of the participant students were the major highlights of this successful event.
