Industrial Visit @ Bosch Rexroth India Private Limited, Sanand

Training & Placement Cell of Shantilal Shah Engineering College had organized an Industrial Visit at Bosch Rexroth India Privat Limited, Sanand on 21st July, 2017.

45 students of final and pre final year Production Engineering have been benefited by this visit. The students were imparted practical knowledge by the experts of organization in the fields of

- Hydraulic and Pneumatic Mechanism and Application
- Manufacturing Plant for Control and Drive Systems
- Application of Kanban and Total Employee Involvement
- Personality Development

The students experienced value addition to knowledge and learnt the skills of team building.

We are very much thankful to the organization for providing an excellent environment. We are also grateful to our Principal- Dr. M. G. Bhatt for granting permission to arrange the visit and support our initiative. The cell is presenting thanks to the Head of the Production Engineering Departments- Dr. A. V. Gohil for motivating students. We are also thankful to Prof. B. J. Chudasama and Prof. P. V. Sartanpara for their harmonization that had helped a lot to make this event successful.

Prof. Maya D. Vadhvani
